MEMORANDUM FOR: Director of Logistics

FROM:

Director of Training and Education

SUBJECT:

Commendation

1. I know that as Director of Logistics you are used to getting accolades for the work of Logistics people, but let me just add my two cents worth of appreciation for the great contribution made by OL to a recent publication "Training for Intelligence." I especially have to commend [redacted] of the Printing and Photography Division's Design and Presentations Center, for her design of the brochure.

2. [redacted] creativity and professionalism are demonstrated in the selection and arrangement of photographs in the brochure. The illustrations highlight the Agency's mission and convey the role of training in that mission. She designed a striking, appealing presentation, that has gotten many appreciative comments around the Agency--and outside as well.

3. I note, also, that in production of this full-color brochure, the Printing and Photography Division under its Chief, [redacted], showed again that its day-to-day standard is excellence. Indeed, in this case, I think our printers outdid themselves. My thanks to them all!
